FIG. 16

The diagram illustrates a data distribution system. At the top, a box labeled 1512 contains two input sources: "From Content Source 1" and "From Content Source 2". Arrows from these sources point to "Server 1", which is a vertical rectangle containing two stacked disk icons. The top disk is solid black, and the bottom disk is filled with a cross-hatch pattern. A label 1504 points to the bottom disk. To the left of Server 1 is "Server 2", another vertical rectangle containing two stacked disk icons, both with a cross-hatch pattern. A label 1502 points to the top disk of Server 2. Arrows labeled D1 and D0 point from the disks of Server 1 to a "Mobile Client" at the bottom, which is represented by a small rectangle with a screen and buttons. A label 1506 points to the Mobile Client. A label 1520 is placed near the D0 arrow.
